

Impact-in-Practice™ — Guided Sample Workshop

One team. One real objective. A decision you leave the room with.

Less talking, more deciding and acting. This 3.5-hour guided workshop takes your leadership team through the full Impact-in-Practice™ board on **one strategic objective of your choosing** — and turns it into concrete, owned 90-day actions before you leave the room.

A complete, facilitated run of the tool applied to **your** organisation rather than a case study. You bring the objective; we bring the method, the board, and the facilitation that keeps the conversation moving from discussion to decision.

What the session delivers

- **A 3.5-hour guided session** with your team, facilitated end-to-end on the physical Impact-in-Practice™ board.
- **Full journey on one objective** — context, values and boundaries, impact lenses, trade-offs, and the bridge that links who you are to what you decide.
- **Three concrete 90-day actions** — each with a named owner, a deadline, and the trade-off you consciously accept — captured in a documented plan your team can act on the next day. Clear steps, clear accountability, no excuses. (Resources to the actions will also be identified in this step)

Your investment

STANDARD RATE CHF 1,900 <i>per workshop · one team · one objective</i>	FOUNDING-COHORT RATE CHF 1,250 <i>early-access pilot price</i>
--	--

Flat fee per workshop — one team, one objective. The founding-cohort rate is reserved for the small group of organisations joining us during the MVP phase.

What the founding-cohort rate includes

- **Locked preferential pricing** — your founding-partner rate carries forward to what comes next, ahead of standard list price.
- **A voice in the tool** — your experience directly shapes Impact-in-Practice™ before its full commercial release.
- **Priority access** — first to new or updated lenses, card sets, and the digital version as they ship.

*In return, all we ask is **your candid feedback after the session** — so the tool you helped shape keeps getting better. Recognition as a founding pilot partner is entirely optional and yours to decline.*

If you decide to go further

This workshop is the entry point to our recommended full engagement: **four half-day workshops per team, per strategy** — the depth needed to move a complete strategy from intention into practice.

Commit to the full programme within **60 days** of your sample workshop, and the **CHF 1,250 you paid is credited in full** toward the programme price. Your sample workshop becomes the first instalment of the larger engagement. (Full programme quoted per engagement.)
